

Recommended Trainer List to help with Your Horse or Pony

Our Recommended Trainers are specialists in training and understanding horses, ponies, both young and 'horses with problems'. Using established principles of psychology and equine behaviour together with years of experience this way of training has become increasingly popular. Sympathetic to both horses and people our Recommended Trainers have helped horses and horse owners achieve a better understanding and achieve their full potential all around the world. Whether you have a young foal or weanling that needs handling; a horse that needs saddling, long-reining, backing; a horse who won't shoe, catch, load, clip, needs schooling, hacking out, or anything else you can think of our Recommended Trainers can provide you with a solution to get you heading in the right direction.

Please be sure the RT of your choice is suitable to work with you and your horse, checking their facilities, experience with your horse's particular issues as well as payment arrangements. You are not limited to only the people in your area, you may find someone further afield may be more suitable. If you cannot make contact with your chosen RT in a reasonable amount of time we suggest you try another person who is suitable for you and your horse.

Please note RTs with a * sign means they are provisional members in their first 3 years of being an RT. Thank you.
